

***Anti-GAT-4****(Plasmalemmal GABA transporter-4, Slc6a13)*

Code Number : GAT4-Rb-Af360 (rabbit, RRID : AB\_2728723)  
 : GAT4-GP-Af269 (guinea pig, RRID : AB\_2728732)

Size : 20 µg and 50 µg / See label on vial  
 (affinity-purified with antigen polypeptide)

Formulation : Liquid ; 200 µg/ml in PBS with 0.05% NaN<sub>3</sub>.

Storage : Store at 4°C. The antibody can be stored at 4°C. The antibody can be also aliquotted and stored at -80°C for long-term storage. Avoid repeated freeze-thawing. Non-hazardrous. No MSDS required.

Species : rabbit / guinea pig, polyclonal

Antigen : mouse, 166-179 aa (BC023117)

Specificity : mouse (others not tested)

Due to low expression in the brain, the specificity has not been shown by immunoblot. Immunohistochemistry with our rabbit GAT4 antibody produces a restricted pattern of labeling in the globus pallidus and neocortex.

Applications : This can be used for immunohistochemistry and immunoblot.

Research Use : For research use only, not for use in diagnostic procedures.

**Remarks** : Note that GAT4 (Slc6a13) is named GAT3 in mice. Mouse GAT4 corresponds to Slc6a11.
