

Anti-GlyRa1

(glycine receptor $\alpha 1$ subunit)

Code Number : GlyRa1-Rb-Af840 (rabbit, RRID : AB_2571772)

Size : 20 μg and 50 μg / See label on vial
(affinity-purified with antigen polypeptide)

Formulation : Liquid ; 200 $\mu\text{g}/\text{ml}$ in PBS with 0.05% NaN_3 .
(affinity-purified with antigen polypeptide)

Storage : Store at 4°C. The antibody can be stored at 4°C. The antibody can be also aliquotted and stored at -80°C for long-term storage. Avoid repeated freeze-thawing. Non-hazardous. No MSDS required.

Species : rabbit, polyclonal

Antigen : mouse GlyRa $\alpha 1$, 380-403 aa (NM_020492)

Specificity : mouse (others not tested)

This is **selective to GlyRa $\alpha 1$** , but not other GlyRa subunits. This stains neuronal surface in the lower brainstem and spinal cord.

Applications : In general, affinity-purified antibody is used at around 1 microgram/ml for immunoblot and immunohistochemistry. The most appropriate concentration should be determined by users, because it depends on contents in given cells, tissues and organs.

Research Use : For research use only, not for use in diagnostic procedures.

Remarks :
