

## *Anti-Tubulin $\beta$ -III*

**Code Number** : TubIII-Rb-Af220 (rabbit, RRID : AB\_2571848)  
: TubIII-GP-Af760 (guinea pig, RRID : AB\_2571849)

**Size** : 20  $\mu$ g and 50  $\mu$ g / See label on vial  
(affinity-purified with antigen polypeptide)

**Formulation** : Liquid ; 200  $\mu$ g/ml in PBS with 0.05% NaN<sub>3</sub>.

**Storage** : Store at 4°C. The antibody can be stored at 4°C. The antibody can be also aliquotted and stored at -80°C for long-term storage. Avoid repeated freeze-thawing. Non-hazardous. No MSDS required.

**Species** : rabbit / guinea pig, polyclonal

**Antigen** : mouse TubIII, C-terminal 17 aa  
(BC088749)

**Specificity** : mouse (others not tested)  
This selectively stains neuronal dendrites, perikarya, and axons.

**Applications** : In general, affinity-purified antibody is used at around 1 microgram/ml for immunoblot and immunohistochemistry. The most appropriate concentration should be determined by users, because it depends on contents in given cells, tissues and organs.

**Research Use** : For research use only, not for use in diagnostic procedures.

**Remarks** : Rabbit and guinea pig antibodies are similar in the titer and specificity.
